ABOUT ME

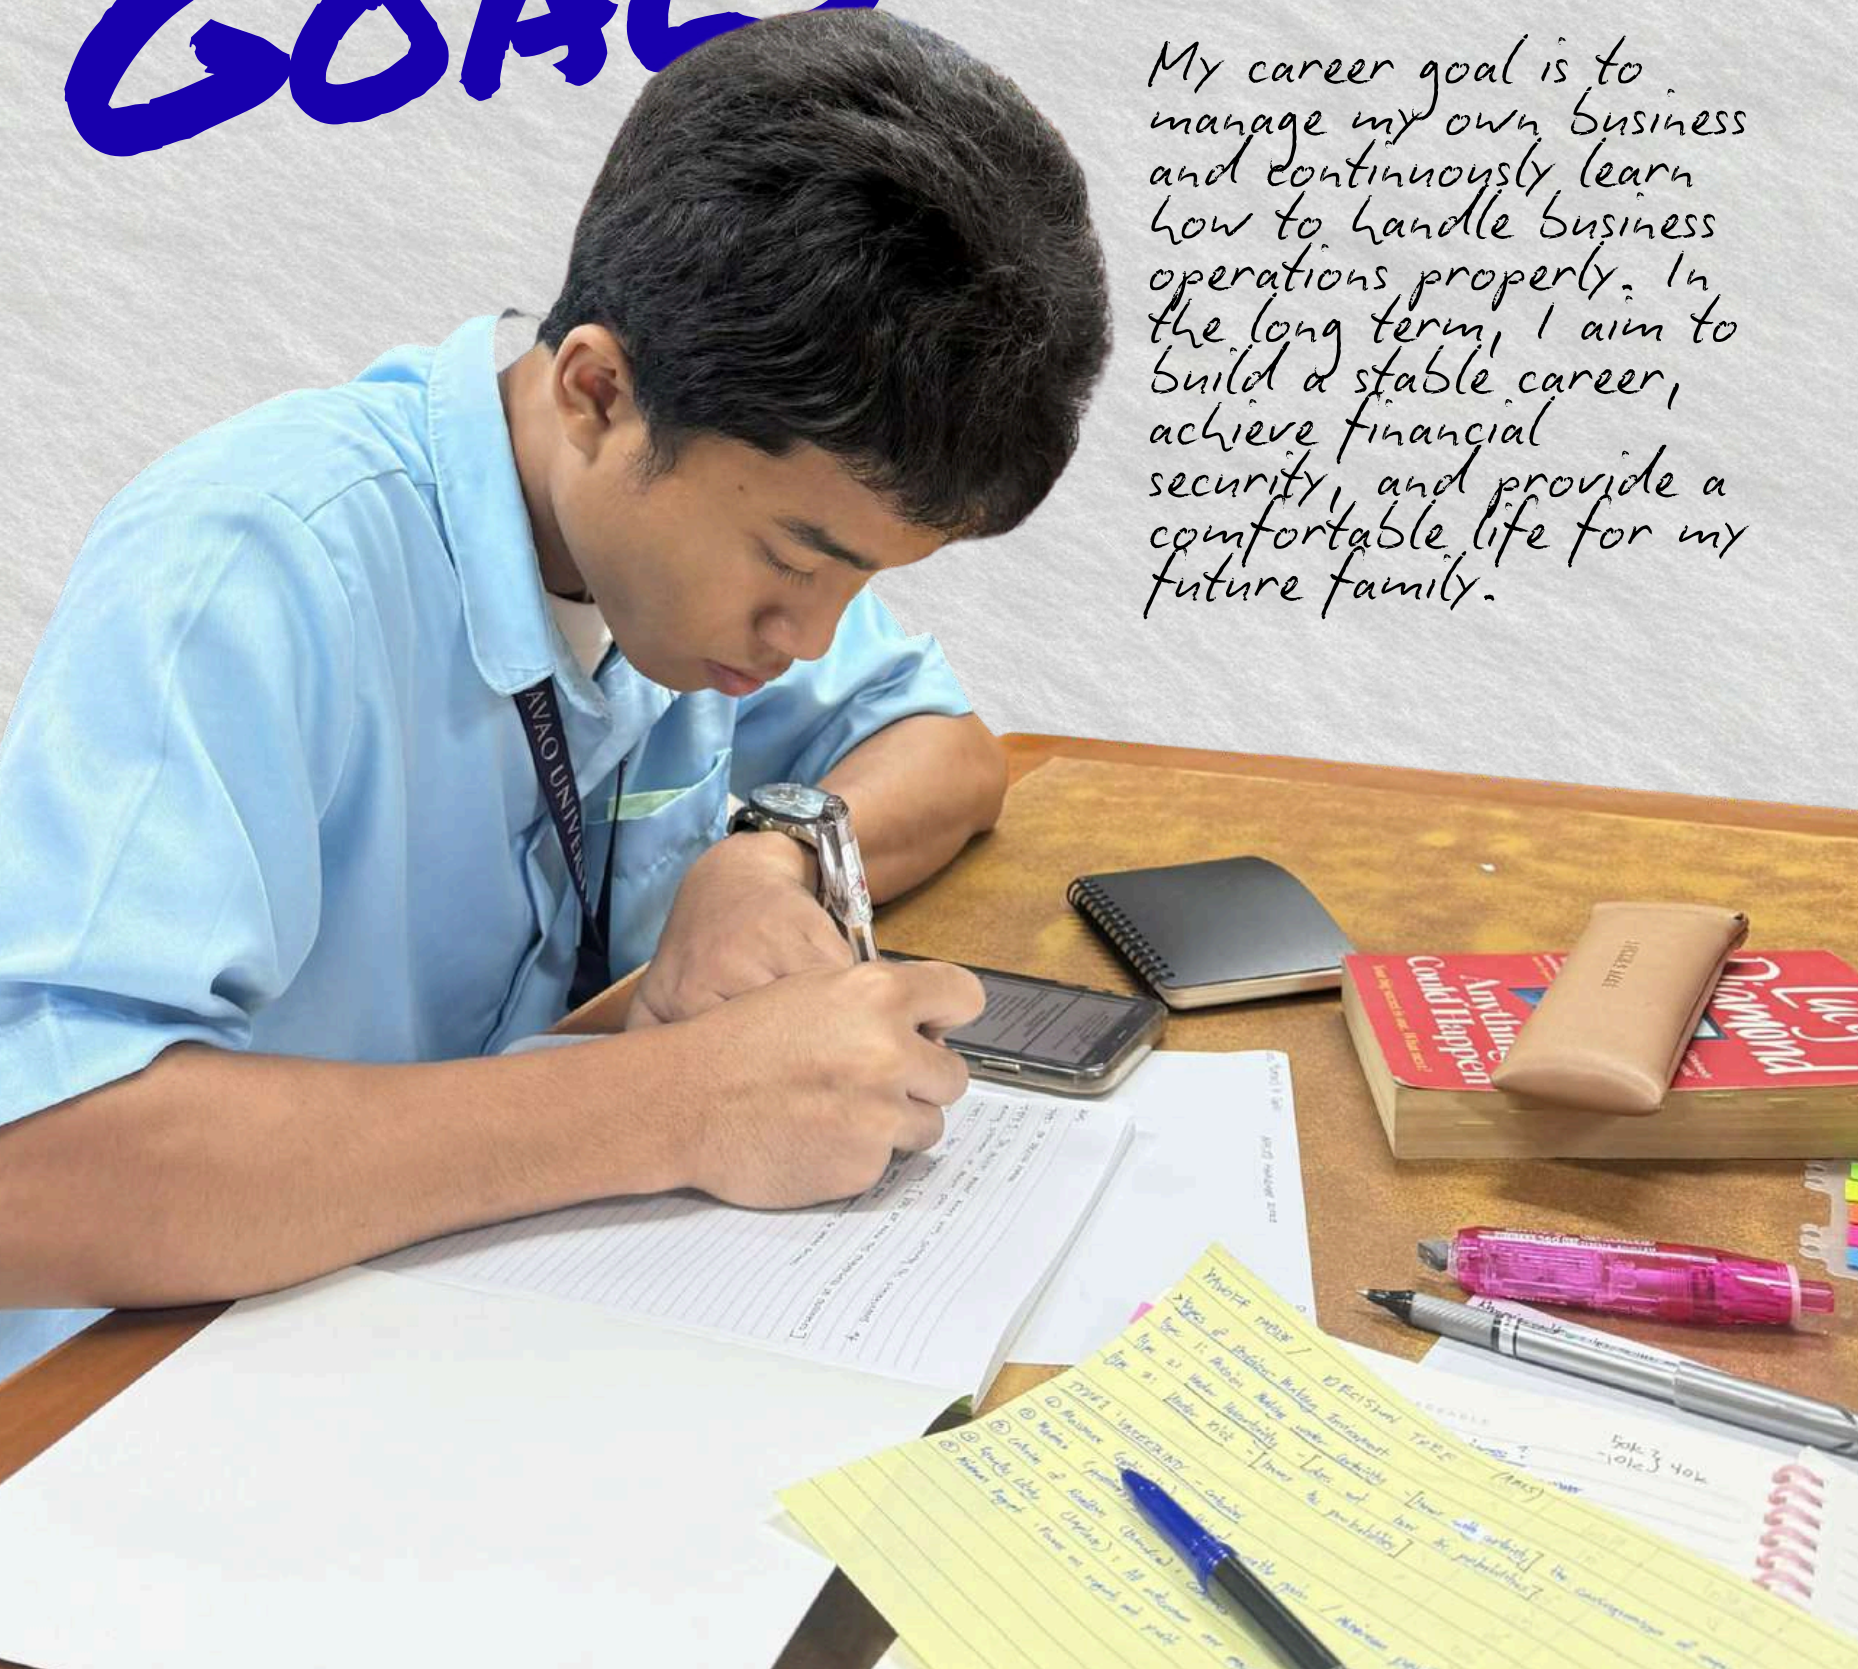

I'm from Parabo City, where I balance an active lifestyle with the things that keep me grounded. I'm passionate about **competitive badminton**, enjoying both the discipline and intensity the sport demands. Outside the court, I like to unwind by **listening to R&B**, which sets the pace for my quieter moments.

I also enjoy **cooking**, experimenting with different dishes and finding satisfaction in the process of creating something from scratch. Spending time with my **girlfriend and close friends** is important to me, as they keep life meaningful and balanced. At home, I share that joy with my **dog Bridget**, and I've also grown fond of my girlfriend's dog, **Fluffy**, who has become part of my everyday life.

CAREER GOALS

My career goal is to manage my own business and continuously learn how to handle business operations properly. In the long term, I aim to build a stable career, achieve financial security, and provide a comfortable life for my future family.

SKILLS

I have a practical skill set that includes cooking, being a smart and analytical thinker, and handling both manual and automatic driving. I'm a clean-oriented person who values order and efficiency, and I'm naturally mechanically inclined, often taking on hands-on tasks and repairs at home.

THANK YOU.
